PROPOSAL FOR INTERNSHIP TRAINING FOR UNDERGRADUATE

PROPOSAL:

The Institute for Advanced Learning and Skill Development would like to collaborate with the College to provide project-based internship and training on emerging technologies as the additional certification for all the undergraduate students.

We suggest the students to undergo the internship-based training during their graduation to complete the mandatory 3 credit point for the University Certification requirement and at the same time enhance the employability after graduation with knowledge on emerging technologies and the job scenario.

PROJECT BASED INTERNSHIP AND TRAINING

Topic I: Certificate in Excel & Advanced Excel

Course Objectives:

The 60-hour **Advanced Excel Training** is designed to equip undergraduate students with essential data management, financial analysis, and business reporting skills. This course enables learners to apply advanced Excel functions, automate repetitive tasks with Macros and VBA, and create interactive dashboards for financial decision-making. Students will gain hands-on experience in accounting, taxation, business forecasting, and financial modeling, making them job-ready for careers in finance, accounting, business analytics, and commerce-related roles. Through real-world projects and case studies, this training ensures that learners develop practical, industry-relevant expertise to excel in corporate and entrepreneurial environments.

Expected Outcomes:

Upon successful completion of the course, students will be able to:

- **Handle large financial datasets** and perform accurate data analysis.
- **Develop interactive dashboards** for business and financial reporting.
- **Create financial models** for investment, cost-benefit analysis, and forecasting.
- **Automate manual accounting and business processes** using Macros and VBA.
- **Apply Excel skills in taxation, banking, and corporate finance** roles.
- **Generate industry-standard reports** that improve business decision-making.
- **Boost employability in finance, accounting, business analysis, and commerce-related careers.**

Eligibility: All undergraduate students across streams with Basic knowledge of computer and Excel.

Duration: 60 Hrs.

Course Outlines:

- Introduction to Excel and Advanced Excel
- Working with Large Datasets, Tables & Named Ranges
- Working with Functions & Formulas
- Data Handling & Cleaning Techniques
- Data Analysis & Business Reporting
- Working with PivotTables & PivotCharts
- Financial Modelling & Business Forecasting
- Automation with Macros & VBA
- Taxation & Business Accounting in Excel
- Excel Integration with Word, PowerPoint, and Outlook
- Project

Course Fee: Rs. 700/- all inclusive

Minimum Student: 100 students

No of Certificates: 2

- Training completion certificate
- Project based internship completion certificate
